Journal of Dentistry

Index to Volume 23 (1995)

Article index

Number 1

Pharmacological control of periodontal disease. II. Antimicrobial agents *R. A. Seymour and P. A. Heasman* 5

Pulpo-dentinal complex revisited *M. Goldberg and J.-J. Lasfarges* 15

Treatment times for three different types of veneer restorations *A. C. Meijering, N. H. J. Creugers, J. Mulder and F. J. M. Roeters* 21

Effect of food and oral simulating fluids on structure of adhesive composite systems *S. - Y. Lee, E. H. Greener and H.J. Mueller* 27

Effects of a commercial orthodontic debonding agent upon the surface microhardness of two orthodontic bonding resins *C. J. Larmour and R. G. Chadwick* 37

Influence of temperature and relative humidity on early bond strengths to dentine *M. F. Burrow, Y. Taniguchi, T. Nikaido, M. Satoh, N. Inai, J. Tagami and T. Takatsu* 41

Durability of resin bonds to a cobalt-chromium alloy *M. Kern and V. P. Thompson* 47

A comparative study of three dental adhesives *S. Nery, J. F. McCabe and R. W. Wassell* 55

Letters to the Editor 63

Number 2

Dental Materials: 1993 Literature Review *C. H. Lloyd and S. N. Scrimgeour (Editors)* 67

Dietary staining *in vitro* by mouthrinses as a comparative measure of antiseptic activity and predictor of staining *in vivo* *M. Addy, S. A. Mahdavi and T. Loyn* 95

Effects of several tea components on acid resistance of human tooth enamel *H. Yu, T. Oho and L. X. Xu* 101

Wear patterns in two amalgams and three posterior composites after 5 years' clinical service *L. H. Mair* 107

Effectiveness of ethylene oxide for sterilization of dental handpieces *H. H. Parker IV and R. B. Johnson* 113

Water content in experimental dentine primers to minimize the contraction gap width of a light-cured resin composite *K. Yokoi, H. Miyaji, K. Itoh, H. Hisamitsu and S. Wakumoto* 117

A new temporary soft lining material *N. J. A. Jepson, J. F. McCabe and R. M. Basker* 123

Number 3

Initial stages in the development of valid criteria for the replacement of amalgam restorations *F. M. Paterson, R. C. Paterson, A. Watts and A. S. Blinkhorn* 137

A clinical study of pulsed Nd : YAG laser-induced pulpal analgesia *C. J. Whitters, A. Hall, S. L. Creanor, H. Moseley, W. H. Gilmour, R. Strang, W. P. Saunders and R. Orchardson* 145

Elderly people's adaptability to complete denture therapy: usability of a geriatric behaviour-rating scale as a predictor *C. de Baat, W. Kalk, A. J. A. Felling and M. A. van't Hof* 151

Assessment of tooth wear in an ageing population *M. A. Donachie and A. W. G. Walls* 157

An *in vitro* assessment of tooth preparation for porcelain veneer restorations *B. R. Nattress, C. C. Youngson, C. J. W. Patterson, D. M. Martin and J. P. Ralph* 165

Bacterial adhesion to dental amalgam and three resin composites *J. P. Suljak, G. Reid, S. M. Wood, R. J. McConnell, H. C. van der Mei and H. J. Busscher* 171

Antibacterial activity of MDPB polymer incorporated in dental resin *S. Imazato, R. R. B. Russell and J. F. McCabe* 177

Influence of light intensity on two restorative systems *G. L. Unterbrink and R. Muessner* 183

Number 4

An improved reagent for chemomechanical caries removal in permanent and deciduous teeth: an *in vitro* study *H. K. Yip, A. G. Stevenson*

and J. A. Beeley 197
Digitizing of radiographs with a flatbed scanner *S. K. Chen and L. Hollender* 205
Salivary clearance of citric acid after an oral rinse *E. Bashir, O. Ekberg and F. Lagerlöf* 209
Tunnel restorations : a long-term pilot study over a minimum of five years *P. J. Lumley and F. J. Fisher* 213
Dentine permeability and bond quality as affected by new bonding systems *C. Prati, P. Ferrieri, C. Galloni, R. Mongiorgi and C. L. Davidson* 217
Light curing unit effectiveness assessed by dental radiometers *A. C. Shortall, E. Harrington and H. J. Wilson* 227
Release of fluoride from glass polyalkenoate (ionomer) cement subjected to radiant heat *M. J. Woolford and A. R. Grieve* 233
Casting skrinkage of thin-walled castings *H. Ogura* 239
Temperature and dimensional changes in the two-stage processing technique for complete dentures *K. C. Yeung, T. W. Chow and R. K. F. Clark* 245
Mechanical behaviour and structure of light-cured special tray materials *H. Devlin, A. J. Cash and D. C. Watts* 255

Number 5

Thermographic measurement of temperature change during resin composite polymerization *in vivo* *D. L. Hussey, P. A. Biagioni and P. -J. Lamey* 267
Identification of elderly in particular need: results of a survey undertaken in residential homes in the Manchester area *G. Hoad-Reddick and J. R. Heath* 273
SEM characterization of the resin–dentine interface produced *in vivo* *P. R. Walshaw and D. McComb* 281
Impregnation by dentine bonding agents into instrumented root-face dentine *F. Blair, J. Whitworth and R. W. Wassell* 289
A delayed hypersensitivity reaction to dentine primer in the guinea-pig *K. Katsuno, A. Manabe, K. Itoh, H. Hisamitsu, S. Wakumoto, S. Nakayama and T. Yoshida* 295
Zonal coulometric analysis of the corrosion resistance of dental alloys *L. Reclaru and J.-M Meyer* 301
The effect of preparation conditions of acrylic denture base materials on the level of residual monomer, mechanical properties and water absorption *A. Doğan, B. Bek, N.N. Çevik and A. Usanmaz* 313
Contamination of titanium castings by aluminium oxide blasting *B. W. Darvell, N. Samman, W. K. Luk, R. K. F. Clark and H. Tideman* 319

Number 6

Clinical and semiquantitative marginal analysis of four tooth-coloured inlay systems at 3 years *S. Gladys, B. Van Meerbeek, S. Inokoshi, G. Willems, M. Braem, P. Lambrechts and G. Vanherle* 329
The seroepidemiology of herpes virus infections among dental personnel *A.-M. Herbert, J. Bagg, D. M. Walker, K. J. Davies and D. Westmoreland* 339
Initial study of periodontal status in non-insulin-dependent diabetics in Mauritius *A. A. Morton, R. W. Williams and T. L. P. Watts* 343
Timing of first restorations in permanent teeth: a new system for oral health determination *M. A. Larmas, J. I. Virtanen and R. S. Bloigu 347*
Radiographic detection of overhangs formed by resin composite luting agents *B .O'Rourke, A. W. G. Walls and R. W. Wassell 353*
A laboratory evaluation of Ektaspeed Plus dental X-ray film *K. Horner, V. E. Rushton and A. C. Shearer* 359
Duration of cleaning and priming of dentine and contraction gap formation *M. Ohhashi, K. Itoh, H. Hisamitsu and S. Wakumoto* 365
Influence of light irradiation of dentine primers on dentine–resin bond *M. Miyazaki, K. Hinoura, H. Saito, H. Onose and B. K. Moore* 371
The effectiveness of an indicator gel in the detection of exposed dentine *D. C. van Gogswaardt and V. G. Behrens* 375
